**Fernntac Dremas Limited started operations 6 years ago and was incorporated as a private limited company in 2019. Fernntac Dremas strives for high standards of service and our client chain is proof that we are a trusted supplier of services relating to generators.**

- Our core business is providing power generating systems, plant related and industrial equipment, parts and service to our valued clientele. We are key stockists of generator parts and assorted components.
- Over the years, our asset base has grown significantly and we proudly positioned as key SME dealers. It is our hope that your will discover us and appoint us as your preferred supplier of products and services.
- At Genpart Services Ltd, we have harnessed and invested suitable intellectual capital that promotes superior collaboration and idea-sharing with our beneficiaries. We are committed to help organizations and enterprises stay profitable through provision of uninterrupted power supply needed to run your enterprise.
- Our motto is to focus all efforts to consistently deliver quality and service which exceeds the toughest demands and scheduling. We do this by employing tactical business outsourcing models, ROIs and best practices.
- From the beginning, our company has provided direct benefit to our clients through competitive pricing, scalable capabilities, and building quality partnerships. Through our widely recognizable strengths, Fernntac Dremas Ltd maintains the technical expertise, professionalism, and financial capacity to succeed on the largest and deemed most mission-critical requirements.

# Covid-19 Response Policy

## Our Covid-19 Response Policy

We listen to news daily. It helps us monitor and respond to the coronavirus (COVID-19) situation as it evolves. We remain steadfast in our commitment to provide our employees, customers, and partners with the highest possible standard of service and care as prescribed and advised.

We recognize that it is not our duty to publish any statistics since the Kenya government has placed a directive as the sole source of correct information on the virus hit. We remain cautious and optimistic that our government continues to keep a serious commitment in East Africa region to militate against the pandemic. We appreciate that gifted professionals are continuing to prescribe important and strict measures to restrict the spread of the virus.

As you would expect from us, our team has a policy document published and disseminated to all our employees requiring them to adhere to health and hygiene standards using the latest COVID-19 guidance from governmental health entities and those from the World Health Organization

## Statement to our clients who require after sales service

In our Terms and Conditions of sale published on our website, we have clearly outlined that we are ABLE to provide after sales services across all counties amid travel lockdown dilemmas because our company has special pass for providing essential power backup services.

In addition, we are committed to providing our customers the flexibility they may require as this situation continues to change.

## Home and Work Policy

It includes, but is not limited to:

- Social distancing at work place and full time wearing of masks. Our employees are freely provided with these.
- Encouraging our customers to shop from our website for gensets and spares using part numbers, model numbers and other specifications required to purchase what is required.
- Keeping ourselves informed about guidelines, updates and requirements issued by the Ministry of Health in Kenya and the World Health Organization both at work place and at home
- Limited office meetings, working from home and use of virtual communications means as and when required
- Ensuring that our offices are equipped with hand sanitizers and requiring the few visitors allowed to ensure proper hygiene and handwashing
- No one enters our premises without a face with nose and mouth covered.
- Personal hygiene at work and at home
- Requiring all our staff members to educate their children on Covid-19 developments and making them understand that it to avoid usual outdoor play and help them play indoors.
- Sharing updates with all close associations
